

## ZONING CHANGE REVIEW SHEET

C8  
1

**CASE:** C14-2015-0081  
Rezone 2513

**P.C. DATE:** August 11, 2015

**DISTRICT:** 1

**AREA:** 0.1949 Acres

**ADDRESS:** 2513 East 10<sup>th</sup> Street

**OWNER:** Guido and Lito Porto

**AGENT:** Guido Porto

**FROM:** LI-CO-NP

**TO:** NO-MU-NP

**NEIGHBORHOOD PLAN AREA:** Central East Austin

**WATERSHED:** Boggy Creek

**TIA:** N/A

**DESIRED DEVELOPMENT ZONE:** Yes

### **SUMMARY STAFF RECOMMENDATION:**

Staff supports the neighborhood office-mixed use-neighborhood plan (NO-MU-NP) conditional overlay zoning request, with the addition of the following: communication service facilities shall be a conditional use; this makes Staff's recommendation (NO-MU-CO-NP).

### **PLANNING COMMISSION RECOMMENDATION:**

August 11, 2015:

### **DEPARTMENT COMMENTS:**

The proposed rezoning tract is located at the southwest corner of East 10<sup>th</sup> Street and Northwestern Boulevard. The property is currently undeveloped and zoned LI-CO-NP. Across Northwestern Boulevard to the east is a railroad corridor. Beyond the railroad corridor is Boggy Creek Greenbelt and a City of Austin Vehicle Service Center, both zoned P-NP. South of the property is an alley, and across the alley is undeveloped lot that is zoned LI-NP. West of this lot and west of the rezoning tract is the Grandview Place neighborhood, which is comprised primarily of single family and duplex homes on SF-3 zoned lots. On the southern edge of the neighborhood, Webberville Road, are several commercial uses zoned CS-CO-MU-NP. *Please refer to Exhibits A and B (Zoning Map and Aerial Map).*

The property was rezoned from LI to LI-CO-NP in conjunction with the development of the Central East Austin Neighborhood Plan under City File # C14-01-0148. The conditions added at that time focused on prohibiting/making conditional several land uses that were considered too intense for the tract. The following uses are prohibited on the subject tract: automotive sales, automotive rentals, commercial off-street parking, convenience storage, drop-off recycling collection facilities, equipment sales, equipment repair services, scrap and salvage, campground, vehicle storage, and laundry services. The following uses are conditional uses on the subject tract: communication service facilities, building maintenance services, kennels, construction sales and services, and limited warehousing and development. None of these land uses are permitted in NO-MU-NP except communication service facilities. Since this use was made conditional with the current zoning, Staff recommends that it remain a conditional land use for the property if rezoned.

C8  
3**STAFF RECOMMENDATION:**

Staff supports the neighborhood office-mixed use-neighborhood plan (NO-MU-NP) conditional overlay zoning request, with the addition of the following: communication service facilities shall be a conditional use; this makes Staff's recommendation (NO-MU-CO-NP).

The current zoning on the property, LI-CO-NP, is much more intense than the dominant zoning and land use in the area—SF-3-NP and residential. However, the property is located on a collector street that connects several land use areas, and is adjacent to a railroad corridor. Although the conditional overlay prohibits or limits many land uses, there are many uses that are still permitted—general and limited retail, general and limited restaurant, etc.—that are intense for the immediate area. The proposed rezoning offers a more suitable zoning classification for the subject tract.

1. *The proposed zoning should be consistent with the purpose statement of the district sought.* Neighborhood office (NO) district is the designation for a small office use that serves neighborhood or community needs, is located in or adjacent to a residential neighborhood and on a collector street that has a width of 40 feet or more, and does not unreasonably affect traffic. An office in an NO district may contain not more than one use. Site development regulations applicable to an NO district use are designed to preserve compatibility with existing neighborhoods through renovation and modernization of existing structures.

2. *Zoning changes should promote compatibility with adjacent and nearby uses and should not result in detrimental impacts to the neighborhood character.*

NO-MU-CO-NP is much less intense than the existing LI-NP, therefore reducing the range of potentially incompatible land uses.

**COMPREHENSIVE PLAN:**

The zoning case is located within the boundaries of the Central East Austin Neighborhood Planning Area / Central East Austin Neighborhood Plan (CEANP). The CEANP Future Land Use Map (FLUM) classifies this area as Mixed Use, which allows commercial zoning, including Zone NO-MU. Therefore, a change to the FLUM is not required.

The following CEANP actions, objectives and text support commercial and mixed use projects in this area:

**Goal 3:** Promote new development for a mix of uses that respects and enhances the residential neighborhoods of Central East Austin. (p 13)

**Objective 3.2:** Provide incentives for creating or maintaining neighborhood serving businesses (p. 13)

**Objective 3.3:** Increase mixed-use opportunities where appropriate along commercial corridors (p. 16)

Text: Options for mixed-use development are recommended for most of the commercial properties in the planning area. A Mixed-Use Overlay (Mixed Use Combining District) allows residential or commercial development, or both types on the same site. The Smart Growth Infill Mixed Use Building is a "Special Use" with its own set of site development standards to promote pedestrian and transit oriented design (see Appendix G for an illustration). These would provide additional options for property owners but would not require anything new.

**Action 22** – For the industrial property at Northwestern and 10<sup>th</sup> Street allow the Smart Growth Mixed Use Building "Special Use." (p 21)

**Action 35:** Rezone properties to implement the Future Land Use Map (p. 23)

**Goal 9:** Ensure compatibility and encourage a complimentary relationship between adjacent land uses.

**Appendix G:** Neighborhood Mixed Use Building – This option allows for buildings with both commercial and residential uses.

C8  
4**SITE PLAN**

SP 1 Site plans will be required for any new development other than single-family or duplex residential.

SP 2 Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

SP 3 **COMPATIBILITY STANDARDS:** The site is less than 20,000 square feet and is subject to compatibility standards. Along the north, west, and south property lines, the following standards apply:

- No structure may be built within 15 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 15 feet of the property line.
- A fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, 40 feet of height are allowed plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- Additional design regulations will be enforced at the time a site plan is submitted.

**TRANSPORTATION**

TR1. Additional right-of-way maybe required at the time of subdivision and/or site plan.

TR2. Nadia Barrera, Urban Trails, Public Works Department and Nathan Wilkes, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.

TR3. According to the Austin 2009 Bicycle Plan Update approved by Austin City Council in June, 2009, a bicycle facility is not identified on E. 10<sup>th</sup> or Northwestern Avenue.

TR4. A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day. [LDC, 25-6-113]

TR5. Existing Street Characteristics:

Name	ROW	Pavement	Classification	Sidewalks	Bike Route	Capital Metro (within ¼ mile)
E. 10 <sup>th</sup> Street	40'	30'	Local	No	No	No
Northwestern Ave.	54'	30'	Collector	Yes	No	No

**ENVIRONMENTAL**

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Boggy Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.
2. Zoning district impervious cover limits apply in the Urban Watershed classification.

C8  
1  
5

3. According to floodplain maps there is no floodplain within or adjacent to the project location.
4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
5. Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
6. This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 s.f. cumulative is exceeded, and on site control for the two-year storm.
7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

#### **WATER UTILITY**

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

## PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:  
[www.austintexas.gov/planning](http://www.austintexas.gov/planning).

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments:

It's unclear what the proposed development is. Why is the applicant proposing to rezone? It would be useful for area residents to know what the proposed development is beyond 41-CO-NP to NO-MU-NP.

I fully support mixed use - and may be in favor or object to the development, but don't know what it is. Thank you, Eddie
